

# Onboarding to Foodbuy Foodservice

## Step 1

Work with your Foodbuy Foodservice National Sales Manager to complete the LOP process to become a Foodbuy Foodservice GPO Member.

## Step 2

Your National Sales Manager will turn in completed paperwork to the Foodbuy Member Experience team. They'll begin the set-up process and alert you of any missing details.

## Step 3

Once onboarding begins, you'll be assigned an Account Manager to help support your strategic plans. Your National Sales Manager will coordinate an introductory call with your designated Account Manager, to help align your goals to help your operation succeed.

## Step 4

Thirty days after distributor data begins to flow, you'll gain access to reporting and data analytics tools through Foodbuy's MPower platform. This platform provides purchasing visibility and performance tracking capabilities.

## Step 5

From here, you'll receive ongoing support from your dedicated Foodbuy Account Manager. Foodbuy Foodservice takes a customer-centered approach to fully understand your business and how Foodbuy can support you. Every customer is different and our flexibility allows us to tailor our procurement solutions to meet your needs.
